Dynamic Changes in Marine Ecosystems: Fishing, Food Webs, and Future Options. Washington, DC: The National Academies Press. doi: 10.17226/11608. × Save. Cancel. 1 Introduction. Fishing by its very nature alters marine ecosystems by selectively removing fish and invertebrates. Humans have become one of the oceans' dominant predators, and with human populations continuing to grow, the ... Dynamic Changes in Marine Ecosystems: Fishing, Food Webs, and Future Options.
