

# Download Notes On Feline Internal Medicine

Internal Medicine Our Small Animal Internal Medicine Department provides a full clinical referral service in feline and canine medicine. We accept referrals in endocrinology, haematology, immunology, gastroenterology, pancreas and liver disease, pulmonology, urology/nephrology and infectious diseases. Combining the cutting-edge medicine of Veterinary Medicine and the tips and advice of Veterinary Economics, VETted offers practical, get-it-into-action now information, with a small side of sass. Dr. Tony Buffington is an emeritus professor at The Ohio State University College of Veterinary Medicine, and clinical professor (volunteer) at the UC Davis School of Veterinary Medicine. Diplomate, American College of Veterinary Internal Medicine Professor of Medicine Colorado State University. Susan Little D.V.M. Dipl. American Board of Veterinary Practitioners (Feline Practice) - Notes On Feline Internal Medicine
