Snakes are elongated, legless, carnivorous reptiles of the suborder Serpentes. Like all other squamates, snakes are ectothermic, amniote vertebrates covered in overlapping scales. The history of the Caribbean reveals the significant role the region played in the colonial struggles of the European powers since the 15th century. The concept of The Hero is very old and every culture and peoples have had individuals they identified as heroes. On account of Society Marches On and Values Dissonance, the notion of what the hero signifies has changed and diverged a great deal from the ancient world to the early modern world to the present day. The Israelis hardly invented this technique, by the way. In 1943, 11 Australian commandos, all white, disguised themselves as Malay fishermen by dyeing their skin brown and boarding a fishing boat. - Threat From The Pearl Of Antilles (Threat Series, Book 1)
