

Download Understanding Teaching Excellence In Higher Education

A Teaching Excellence Framework (TEF) has been introduced in the UK to help inform student choice and recognise and reward excellent teaching. The Foundation for Excellence in Higher Education is dedicated to strengthening universities to fulfill their highest aspirations. Through our grantees, we offer undergraduate, graduate, and professional students the opportunity to pursue their studies with a vision of what higher education should contribute to human flourishing. The UK Professional Standards Framework for teaching and supporting learning in higher education 2011 Welcome to the HETL PORTAL. Welcome to the official website of The International Higher Education Teaching and Learning Association (HETL) – an association of educators, by educators, for educators. - Understanding Teaching Excellence In Higher Education
