

# Download Aha Basic Life Support Manual 2013

Preamble. Since 1980, the American College of Cardiology (ACC) and American Heart Association (AHA) have translated scientific evidence into clinical practice guidelines (guidelines) with recommendations to improve cardiovascular health. In view of the advances in medical therapy across the spectrum of cardiovascular diseases, the Task Force has designated the term guideline-directed medical therapy (GDMT) to represent optimal medical therapy as defined by ACCF/AHA guideline-recommended therapies (primarily Class I). This new term, GDMT, will be used herein and throughout all future guidelines. Jeffrey L. Anderson, MD, FACC, FAHA, Chair; Alice K. Jacobs, MD, FACC, FAHA, Immediate Past Chair[††][1]; Jonathan L. Halperin, MD, FACC, FAHA, Chair-Elect; Nancy ... - ECG strip sinus bradycardia - ECG first degree AV block I - ECG Mobitz type I AV block - ECG Mobitz II heart block - Third degree or complete AV block with narrow QRS escape - Atrioventricular reentrant tachycardia - ECG Monomorphic VT tutorial - ECG showing changes in VF over time - ECG Torsades de pointes tutorial CALCULATORS.
