

# Download Automatic Street Lights Block Diagram

Block Diagram of Automatic Street Lights Intensity Control Here you can read more and buy the ready made kit In the current system, maximum lightning over the freeways is completed through HID (High Intensity Discharge lamps), the energy utilization of HID lamps/lanterns are high.By using this Automatic system for street light controlling, we can reduce energy consumption because the manually operated street lights are not switched off properly even the sunlight comes and also not switched on earlier before sunset.Automatic Street Light Control System PPT, pdf, project report, circuit diagram, block diagram.<http://eceprojects.net/ece-project-reports/micro-controller-pr...>This Arduino based automatic street light system has additional feature of light intensity control for even smarter energy saving. The street lights take up a lot of electricity consumption which is incurred by the government. - Automatic Street Lights Block Diagram
