

Download Automotive Maintenance & Light Repair

Career Studies Certificate. PURPOSE: This career studies certificate is designed to train individuals for employment in express service light repair and maintenance positions at dealerships and independent repair shops. The curriculum covers both theory and shop training with an emphasis on service and minor repair. Will the global automotive repair and maintenance services market show sustained growth in the near future? The automotive aftermarket includes the maintenance and repair of various services and parts such as changing the engine oil, gear oil, brake oil, etc. Tire services include repair of flat tires, tire pressure monitoring, misalignment of tires, and replacement of tires. An automotive course can lead to a number of job opportunities, from fixing up cars as a mechanic to making extensive repairs as an automotive electrician. The VRQs in Vehicle Maintenance and Repair are aimed at anyone interested in starting or developing a career in the motor industry. You do not need any previous experience or need to be in a current work placement. - Automotive Maintenance & Light Repair
