

Download Break Light Wiring Manual For Gmc

Just picked up a used Leer canopy for my truck last week and im looking to wire in the brake light for it. the guy i bought it from didnt have the connector to wire into the truck. just a 3 wire connector hanging from the back of the light. not a big fan of tapping into wires from one of the brake lights even though it may be convenient. i did ...Hello everyone, I have the LEDGlow Bed Lights and would like to wire it up to my factory cargo light switch in my 2003 Sierra. I took apart the dash and was able to pull out the harness connected to the cargo light.
