So on my 2004 silverado 2500 hd 8.1 2wd with 6 the speed regular cab with 4.10 gears I cut the cats off, added a K&N intake system, bully dog gt triple dog tuner and am curious if there are any more tips or tricks to get the 8.1 to peak performance levels? I just test drove a 2500HD with the 6.6 and it had a very nice feel to it. I was skeptical because i have a 6.2 that will **** and get, but was very suprised by the feel of the diesel engine and tranny - Bully Dog Triple Dog Diesel Manual
