Start studying Cardiovascular system test review. Learn vocabulary, terms, and more with flashcards, games, and other study tools. The common iliac artery is located just to the left side of the body of the fourth lumbar vertebra, where the abdominal aorta divides into two arteries.

4.00 Cardiovascular System. A. General. 1. What do we mean by a cardiovascular impairment? a. We mean any disorder that affects the proper functioning of the heart or the circulatory system (that is, arteries, veins, capillaries, and the lymphatic drainage). The cardiovascular system of the upper torso includes the heart and most of the major blood vessels of the circulatory system. These vital structures are critical to the process of pumping deoxygenated blood to the lungs for gas exchange as well as pumping oxygenated blood to the body's tissues to support their metabolic functions. - Cardiovascular System Test Review
