

# Download Electronic Information Display Technologies

Electronic paper and e-paper, also sometimes electronic ink or e-ink, are display devices that mimic the appearance of ordinary ink on paper. Unlike conventional backlit flat panel displays that emit light, electronic paper displays reflect light like paper. Skiplino is the world's most intelligent cloud-based queue management system. Try Skiplino today with a 14-day FREE trial and check how it can revolutionize your business! iXblue is a leading global provider of innovative solutions and services for navigation, positioning, and imaging.
