Adverse childhood experiences affect nearly half of American children. But some, like those on this list of celebrities, find a way to overcome the problems. These are very real obstacles. Especially when they loom over you right now, in the immediate present. But this is deceptive, because for thousands of years people have faced far worse. These half-dozen superstars are all the more inspiring for the bullying and discouragement they have overcome. Two angles facing left, which often indicate, "return to the beginning." Two angles facing right, which often indicate, "advance to the end." But before these successful super stars made it big in ... - Famous People That Overcame Adversity
