Pressestimmen. From the reviews: "This book contains 400 exercises with their detailed solutions. ... It has an extensive list of notations and terminologies and can be used as a stand-alone book. The exercises are grouped into seven chapters with titles matching those in the author's Mathematical Statistics. On the other hand, the book is stand-alone because exercises and solutions are comprehensible independently of their source, and notation and terminology are explained in the front of the book. This book consists of solutions to 400 exercises, over 95% of which are in my book Mathematical Statistics. Many of them are standard exercises that also appear in other textbooks listed in the references. It is only a partial solution manual to Mathematical Statistics (which contains over 900 exercises). Mathematical Statistics: Exercises and Solutions Jun Shao Mathematical Statistics: Exercises and Solutions To My Parents Preface Since the publication of my book Mathematical Statistics (Shao, 2003), I have been asked many times for a solution manual to the exercises in my book. - Jun Shao Mathematical Statistics Exercises Solution
